APRIL 2026

Tips for Upcycling in your garden this year.

Sowing seeds

Start your seeds off in old toilet rolls or egg boxes. You can plant the whole container straight into the ground and the card will break down as the plant grows.

You can also plant your summer bulbs in egg boxes and have beautiful spaced-out flowers either in your lawn or in your borders.

Old tyres

Lay them on the ground and plant inside them. Great for growing potatoes as well as flowers.

Tin cans

These make great pots, and the metal is thin enough to punch holes in the bottom using a nail and hammer. Personalise them by painting them in fun colours!

Other ideas

How about using old wellies as planters, or old plastic bottles, an old colander, or even an old wheelbarrow. I suppose if we thought about it, we could come up with a myriad of ideas.

Why not have a go and see how it turns out.
